**內地孕婦港產子對港社福影響微**

勞工及福利局局長張建宗表示，內地孕婦子女對本港未來十年教育、醫療及福利的需求，只有輕微影響，現時的規劃已經可以應付。

張建宗在回應立法會議員提問時說，統計處推算從二〇〇七年至二〇三六年，內地孕婦在香港所生的嬰兒數目為每年三萬名。其中父親為香港永久性居民的嬰兒佔三分之一，他們當中的九成將會在二十一歲之前返港居住；其餘父母皆非香港永久性居民的嬰兒，近六成將會在二十一歲前返港居住。

張建宗強調，統計處會每兩、三年更新香港人口變化的推算。政府根據統計處的推算數字，進行房屋、教育、醫療等資源的統籌和調配。

就內地孕婦子女對社會資源需求的影響，張建宗表示，房署將確保公屋輪候冊人士能在三年內上樓，社署則會對一些需要援助的家庭提供適切的服務。他說，教育及醫療方面，估計嬰兒不會對未來十八歲以下人士的需求有影響，但會密切留意人口轉變情況。

教育局局長孫明揚亦表示，現時中小學額的規劃，已將內地婦女所生嬰兒將來返港升學的需要計算在內，暫時無須大幅增加教育資源。

**Part 3- Group Discussion (Total time: 5 minutes)**

***Language: English***

One of the challenges for social welfare in Hong Kong in the coming years is ageing and the radically changing population structure. The new arrivals from the Mainland and the birth continue to be a major factor contributing to the growth of the population.

Discuss why the pregnant mainland women would like to have babies in Hong Kong, what social welfare services such as education and medical services they need, and what any other suggestions about this symptom?

*You do not need to come to a final decision or to reach a conclusion to your discussion. You should try to discuss both the content and procedures involved in your discussion task. You cannot take notes or write during the discussion.*

*The judges cannot answer any questions about the instructions or the task you have to discuss. If you have any questions, you may discuss them among yourselves and that will be an acceptable part of your group discussion which will be assessed.*
