- 2. 試述香港人在九七回歸前後的身份改變
- 3. 學歷與能力

English Topics: (Please choose one topic)

- 1. It has become crystal clear that global warming has started to affect the world's climate. We know that the Arctic ice cap has been steadily melting and the sea is warming up. What can Hong Kong people do about global warming?
 - Write an essay on this topic. Give your essay a title.
- 2. In the first time in history, both developed and developing countries are troubled by obesity. An international survey found that obesity is growing in the most regions in the world. Write an article which titled as "Cause and Consequences of Obesity".
- 3. In 2012, there will be a double cohort in the year comprising the last cohort of Secondary 7 students who will have completed the last HKALE under the old academic curriculum and the first cohort of Secondary 6 students who will have completed the HKDSE. As a result, the double cohort will mean increased competition for university places in September 2012 and for job opportunities, summer placements and traineeships in September 2016 respectively.

 As current Secondary 6 students, you and your classmates are very worried about your future. Write to your class teacher, telling her your concern, how you are going to prepare for the keen

competition and suggest how the school can help existing S.6 students cope with the stress.
